Reception Home Learning Pack Week Beginning: 15.06.2020

Information for parents

This learning pack has been created to give you and your children a variety of activities and ideas to choose from while they are at home linked to their 7 areas of learning. We completely appreciate that many families will have a lot to manage at this time, so these packs have been put together as *ideas* to support your child's learning over the coming week. We have therefore compiled different activities that your child may wish to explore, depending on the time and resources that you have available.

When your children have completed different activities, you can upload them onto Tapestry using their individual logins. However, if your child does work in separate books or on paper, this can be brought into school with them when they return. Work will not be formally marked but children will certainly be praised for all of the fantastic learning that they have achieved.

Maths

Every week you can visit the link: <https://whiterosemaths.com/homelearning/>

These White Rose Hub resources give you a video explaining the new concept, along with a number of activities to work through and then answers to check your work. We don't expect you to print the worksheets off, but just work through the activities with your children.

Reading

Please keep sharing books with your children during the day and at bedtime. This helps promote a love of reading. Alongside this they can practise their phonics and understanding of books using bugclub.
