## ONLINE LEARNING

Dear Parents,

During these difficult times, we are aware that children may be absent from school due to Covid 19 related illness/symptoms.

However, we understand that many of our absent pupils will not be poorly or displaying symptoms themselves, but they may have to be at home because of siblings or parents who are displaying symptoms. The Government guidance has asked us to ensure that remote learning is in place and we will therefore be providing work to any pupils who are at home self-isolating or waiting for a test.

The work will be reflective of what is going on each day in children's classrooms. It will be uploaded on a daily basis onto **Google Classroom** for children to access at home. Obviously, if your child is ill, we do not expect them to complete this work.

Please can I ask that you log into Google classroom **this weekend/next week** to ensure you can access this platform and if you have any problems please get in touch.

Your child's login details for Google Classroom can be found on the bottom of this letter.

### For your information, if your child is absent:

#### **Day One:**

Your child should complete the activities in the pack that they have been given. We have provided a workbook for them to work in. These books should only be used if the child is absent from school and unable to be in because of a Covid-related reason.

#### **The following days:**

Work will be uploaded to Google Classroom at the end of every day, ready for your child to begin the following day. The daily activities will be detailed in a clear learning grid and the sheets/videos/activities will be attached too.

#### **How will my child complete the work?**

The work can either be completed online or in the workbook that has been sent home. Work will be marked when handed in, either online or in the workbook. Please make sure that the workbook comes back into school with them when they return.

#### **Checking in**

A check in phone call will be made to the family within the time that your child is absent.

### Questions

If you have any questions about the home learning, please don't hesitate to get in touch via email or phone and we will be happy to help.

This is how we propose home learning will operate for this academic year.

If our school bubble closes due to a child/staff member testing positive for Covid 19, there will be a letter informing you of how learning will take place.

Thank you for your continued support.

Kind regards,

*Sophie Wiseman*

Head of School
